

ATTENTION:
2018 SUMMER ROUTES

Beginning June 11, 2018 through the 1st week of October, the City of Spokane will be reconstructing Sharp Avenue from Ruby Street to Hamilton Street. As such, all east/west traffic on Sharp Avenue will be re-routed to Mission Avenue. Access to the center core of campus will be restricted. While limited access may be available from the north via Astor Street (or alternately Standard Street), those needing to park in the College Hall parking lot will use the east/west alley for access from Cincinnati. Access to the B.A.R.C. Parking Garage will be from Hamilton at either Boone or Desmet, and the access to west campus parking will be from Division/Ruby by way of Boone or Desmet. Refer to routes indicated 

Additionally there will be on-going interior paving projects which may impact pedestrian pathways across campus. Refer to these construction zones indicated  which includes anticipated project end dates.
